vogue™ Classic Series - Crown Cap
Assembly Instructions

① These instructions assume that you have already properly installed the vital™ Cluster Box Unit (CBU). If the CBU has not yet been installed, please refer to the instructions that came with the vital™ CBU.

② Clean top, sides and back of CBU, to clear any surface dirt or debris with a soft damp cloth.

③ Using the supplied alcohol wipes, clean the indicated surfaces of the front and rear of the cluster box unit top surface.

④ Remove cover strips of the double-sided VHB permanent adhesive tape on the underside of the cap.

⑤ Align the cap over the CBU with the lower tape strip edge to the back of the CBU.

⑥ Press down firmly along the front edge and rear edge of the cap to ensure tape is secured.

Note:
Once cap is securely in place, the adhesive tape forms a permanent bond. Cap is very difficult to remove after placement and should be considered permanently installed.

LOWER TAPE STRIP EDGE (TO REAR OF UNIT)

UPPER TAPE STRIP EDGE (TO FRONT OF UNIT)

CLEAN COMPLETE UPPER SURFACES WITH A DAMP CLOTH THEN WIPE DOWN FRONT AND REAR TOP EDGES WITH ALCOHOL PAD

CLASSIC CROWN CAP INSTALLED WITH VHB PERMANENT ADHESIVE TAPE
