Junior Bag Dispenser - Aluminum

Inventory

The below items are included in the dispenser box

- One aluminum DogiPot Jr. bag dispenser
- Mounting hardware – one 2 ½” and one 2 ¾” bolts, washers, and locknuts
- Two keys - for locking front access on dispenser
- Two rolls of DogiPot litter pick-up bags -200 count per roll (inside DogiPot Jr. bag dispenser)

Please check the above inventory and call if any parts are missing.

- Recommended mounting post (not included) - 1 ¾” x 1 ¾” to 2” x 2” square channel post

Pole Installation (if you plan to use a standard channel or square telescopic mounting post)

1. **Select a good visible spot** in your community or park where you want to install the DogiPot Junior bag dispenser such as on a post, building wall, fence, sign post, etc. Park entrances are typically good locations as visitors can take a pick-up bag on their way in and deposit the filled bag in a nearby trash receptacle on their way out.
- **Dig a hole** 18” deep x 7” around.
- **Mix concrete and pour into the hole** - mix, according to bag instructions, a 40 lb bag of “ready to use”.
1. **Insert and level your pole.** Try to find a way to stabilize your pole with braces such as rods or rocks while it dries to keep it from leaning.
2. **Let concrete dry for at least 12 hours** before mounting dispenser.

Dispenser Installation

1. **Unlock the front access panel** with one of the two keys found on the back of the dispenser. Pull the lower part of the front access panel approximate 2” towards you and lift to release and **separate the front access panel from the body of the dispenser.**
2. **Bolt the dispenser to your mount** using the predrilled holes in the back wall. The recommended installation height is 66” (5’ 6”).

Note: The predrilled holes and the included hardware will fit any standard channel or square telescopic mounting post. Mounting hardware for other options is not included.

3. Now sit back and relax while the pet owners pick-up after their dogs!

Bag Installation

For proper bag dispensing, be sure of the following:

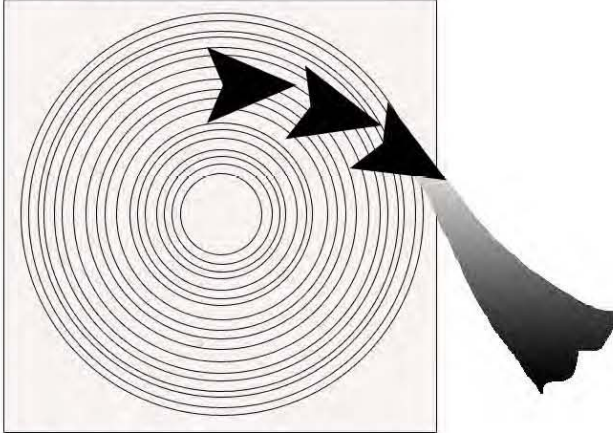

- The dispenser slots match the pick-up bag box slots
- The lettering on the pick-up bag boxes is right-side-up
- The lettering on the pick-up bags is visible on the top when the bags hang out of the slots
- The bags will be dispensed following the upper wall of the dispenser slots - see Illustrations A & B below

Bag Installation

For proper bag dispensing, be sure of the following:

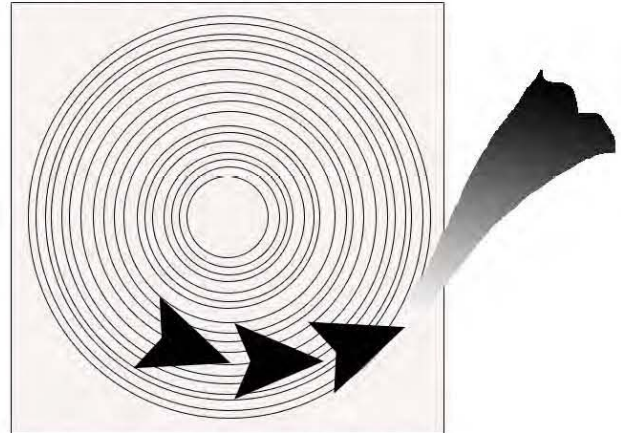

- The dispenser slots match the pick-up bag box slots
- The lettering on the pick-up bag boxes is right-side-up
- The lettering on the pick-up bags is visible on the top when the bags hang out of the slots
- The bags will be dispensed following the upper wall of the dispenser slots - see Illustrations below

Correct Bag Dispensing

Bag pulls down from top.

Incorrect Bag Dispensing

Bag pulls up from the bottom.
